

STEM Speaker Series: Theory at Work

Using Science to Protect Intellectual Property in Mechanical Engineering, Green Technology, Biotech, and Pharmaceutical Industries

Come and see how mechanical engineering and science are tied into the practice of law. Dawn M. David, Intellectual Property Attorney at Brinks Gilson & Lione Law Firm, has a bachelor's degree in mechanical engineering from the University of South Florida, a master's degree in engineering management from the University of South Florida, and a law degree from the John Marshall Law School
